SECTION I

Introduction

Sarah Kaufman is the Central Point of Coordination Administrator for Henry County. The Central Point of Coordination office is located at 106 N Jackson Street, Mt Pleasant, Iowa 52641. Business hours are 8:00 a.m. to Noon and 1:00 p.m. to 4:30 p.m., Monday through Friday. The office telephone number is 319-385-4050, fax machine telephone number is 319-385-1948 and e-mail can be sent to: skaufman@henrycountyiowa.us.

This annual report has been developed to report Henry County Mental Health-Developmental Disability service funding information for fiscal year 2009 which was from July 1, 2008 through June 30, 2009.

The goal of this report is to explain how the Central Point of Coordination Administrator implemented the Henry County MH DD Management Plan and state requirements in the provision of funding for mental health services for eligible consumers, identify the types of services Henry County funded, identify the providers serving consumers, what is done to insure we are funding quality services, what we do to involve stakeholders in the decisions Henry County implements for mental health funding, provide data on how county dollars were spent, provide data on funding by diagnosis and show an unduplicated count of how many consumers Henry County funded.

SECTION II

Strategic Plan Goal Analysis

A) *Progress Towards Goals and Objectives*

Goal 1:

To address the need for residential services for individuals requiring 24 hour supervision.

This goal is the result of Southeast Iowa and the State of Iowa as a whole seeing a reduction of residential care facility beds. This means individuals needing residential services may have to be placed further from their homes and family. By developing supervised residential settings in the community we can allow consumers to continue to reside in their home community near family and friends.

The Henry County Care Facility continues to operate at maximum capacity of 15 beds. The Henry County Care Facility has a transitional apartment setting at the facility and can serve three consumers in that setting. Henry County has 5 community based waiver sights.

Goal 2:

To update the Henry County Management Plan.

Henry County achieved the goal of updating the Henry County Management Plan. The plan was approved by the Department of Human Services in December 2006 and went into effect January 1, 2007.

A copy of the current management plan may be requested by contacting the Henry County CPC. Contact information is on the first page of this report.

Goal 3:

To address improving attendance at stakeholders' meetings to include more representation by consumers, their guardians and family.

This goal is the result of low attendance at stakeholder's meetings by consumers and their family or guardians. Efforts to improve stakeholder meeting attendance by consumers and their family will remain a priority, but it will not remain a formal strategic plan goal.

During FY09 the consumer attendance at stakeholder meetings did increase as the CPC was invited to be a speaker at the local Recovery Center. By bringing the stakeholder meetings to consumers where they regularly gather attendance will improve, information will be shared and consumers will be involved in the decisions Henry County makes about providing funding for services in Henry County.

Goal 4:

This goal will address the implementation of Functional/Diagnostic Eligibility Standards.

The MHDD System Redesign includes moving to using statewide standardized functional assessment tools to establish funding eligibility and the level of services and supports that an individual needs. Clinical criteria would be used to establish level of care. Statewide progress on this goal has not yet happened. Implementation plans remain undetermined. This goal will be discontinued when the new strategic plan is written.

B) Appeals

Henry County had one appeal filed in fiscal year 2009.

This appeal was filed by mail on March 10, 2009. An applicant was denied county funding for outpatient mental health services due to being in the custody of the Department of Corrections with placement at a residential correctional facility. The

applicant said they were on probation at the facility and not in the custody of the Department of Corrections.

The Henry County CPC reviewed the management plan policy and consulted with peer CPC's statewide about their policy regarding funding an applicant who is residing in a residential correctional facility. The consensus was that if a person is on probation at a residential correctional facility they are expected to fund their own basic needs, including mental health services and counties paid for mental health services in these situations.

I met with the applicant and reversed the denial.

The current Henry County Management plan states that Henry County is the funder of last resort and persons in the custody of the Department of Corrections or Department of Corrections residential correctional facilities are not eligible for county mental health funding unless otherwise mandated by law. This policy needs to be clarified.

At the writing of this report Henry County is working with the CPC Administrators in Des Moines County, Keokuk County, Lee County, Louisa County, Muscatine County and Washington County to create a joint mental health and disabilities service funding administration plan. Additionally the Des Moines County CPC had an appeal filed in fiscal year 2009 for denying funding to an applicant who was residing in a residential correctional facility. This appeal is going to be heard before an Administrative Law Judge in October 2009. The result of this hearing will play a key role in how the issue of funding applicants who reside in a residential correctional facility will be addressed in the joint administration plan.

C) *Quality Assurance*

Current measures of quality assurance include using providers who have established contracts with Henry County or who are contracted by host counties. Direct provider contacts, CPC staff attendance at consumer's team meetings, file reviews with providers, satisfaction and needs surveys sent to consumers are utilized to monitor quality assurance.

A Consumer Satisfaction Survey will continue to be sent to eligible consumers annually. Needs surveys will continue to be sent every three years to eligible consumers. This information will continue to be used for policy making and improving efforts to efficiently and effectively meet consumers needs in the least restrictive and most cost effective setting available.

The Henry County CPC Administrator and assistant administrator also attend multiple continuing education conferences, trainings, and professional affiliate meetings to ensure that Henry County and CPC staff are following best practices and implementing all applicable state and federal laws.

Our provider agencies also send out consumer satisfaction surveys and copies of those final reports are shared with CPC office. These reports are reviewed by the CPC and shared with the Henry County Board of Supervisors. Within the Central Point of Coordination peer group there is discussion on how CPC's and providers can join together send out fewer satisfaction surveys to consumers and gather the same amount of information.

In FY2009 the Henry County CPC sent out a quality assurance survey to gather information about consumer and provider satisfaction with the process the CPC office uses to perform their duties. The results have been shared in the graphs that follow.

CPC Quality Assurance Provider Survey
 Results FY2009 24 surveys were
 returned from providers

Comments:

1. Sarah is great to work with: SICM
2. I strongly believe that Henry County CPC Office understands the difficulty & process of opening individuals and allows us to complete the minimum amount of paperwork needed.
Thank you for all you do.: SICM
3. We are thankful for the invitations to meetings regarding budgets and other information.
4. The Case Managers do not always seem to remember that we provide community employment services and therefore referrals are not made to us I feel that the relationship between the CPC Office and Flexible Services has improved.: Hope Haven

CPC Quality Assurance Consumer
 Survey Results FY 2009 91 surveys were
 returned from consumers

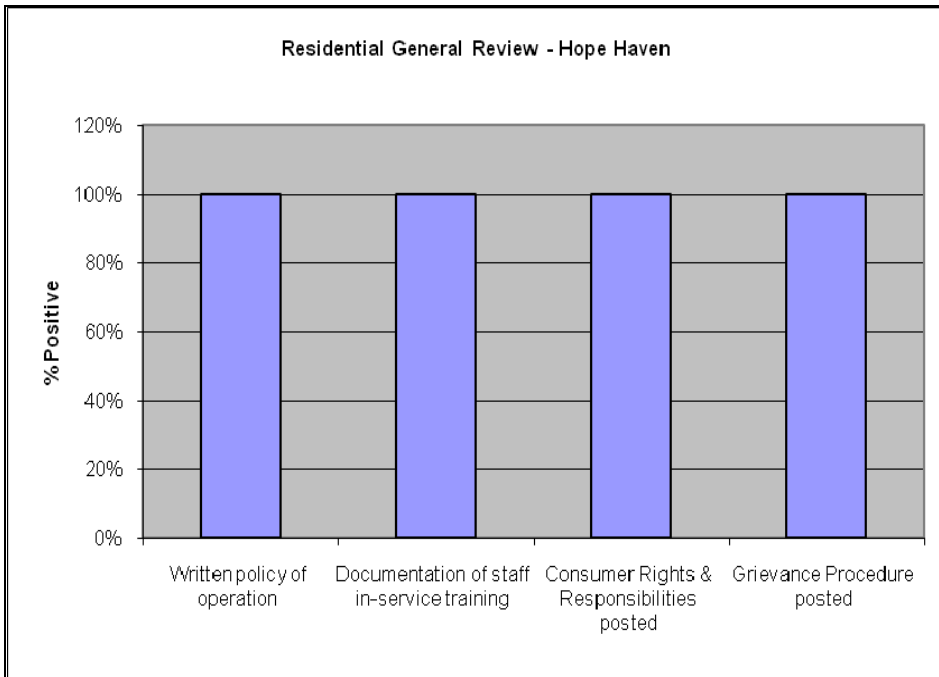

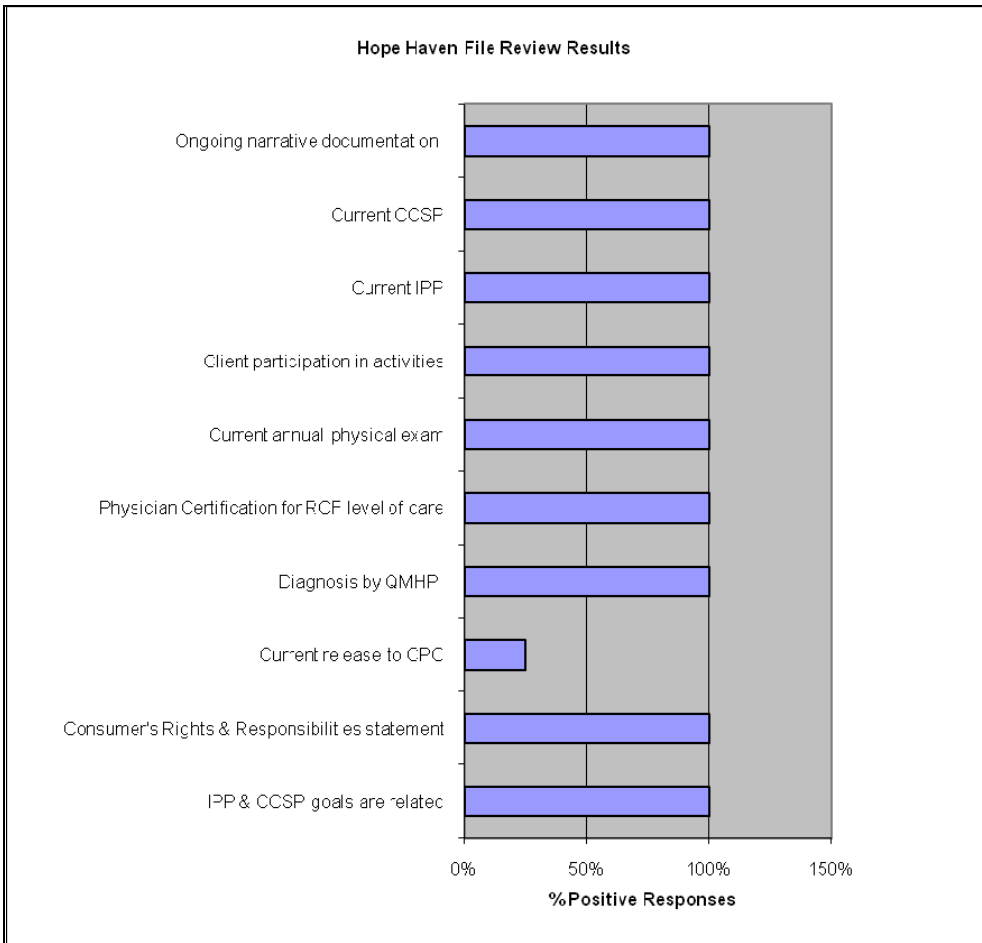

Comments:

K. wants you to know that she "loves" the Drop-In Program at the Recovery Center. As her guardian, I see great value in that program. She has benefitted greatly from it!

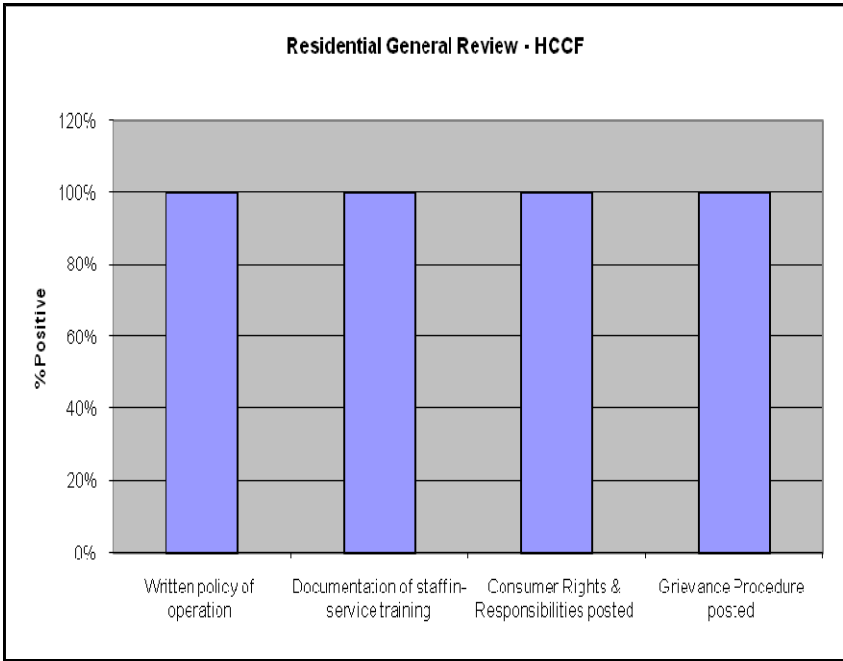

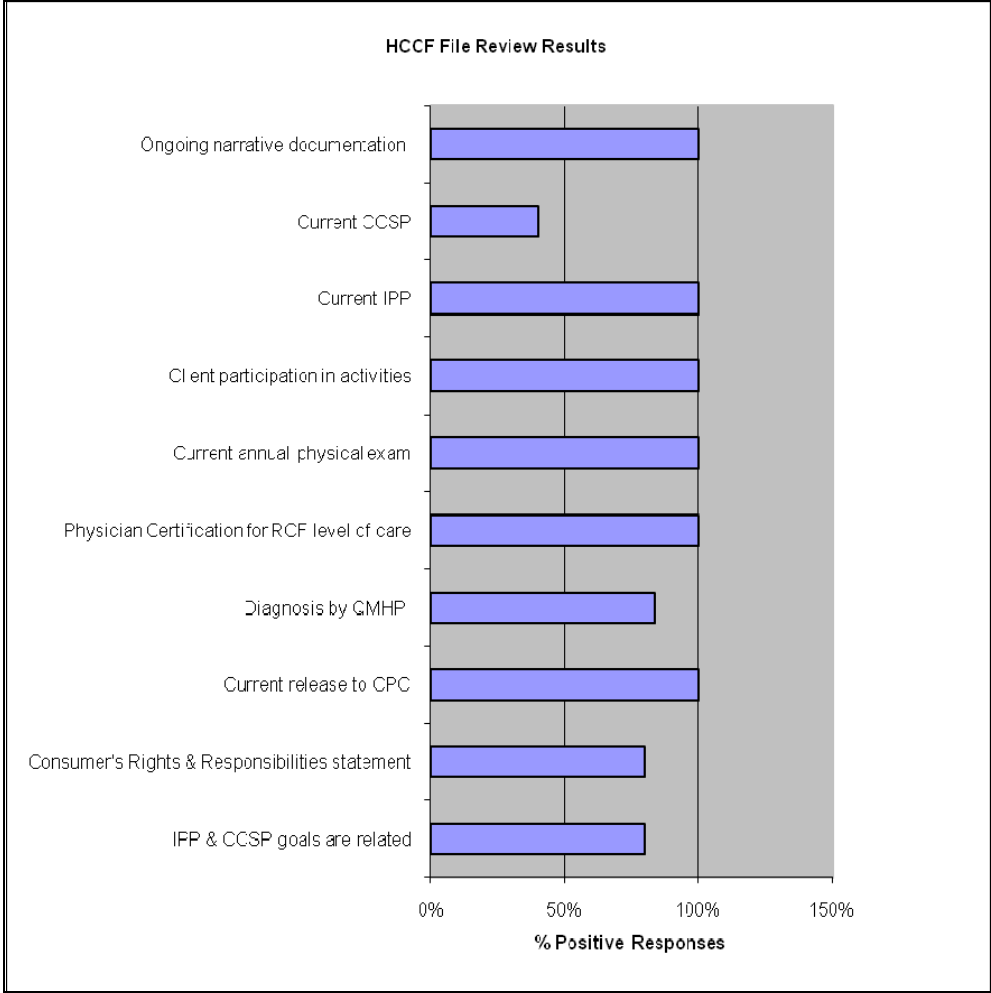

M. really needs this service. He has a good quality of life from this.

During FY 2009 the Henry County CPC office completed quality assurance reviews of residential services with Hope Haven and the Henry County Care Facility. The most notable area is that the consumers who returned consumer satisfaction surveys reported 100% satisfaction for both agencies. The results of the survey are shown in the graphs that follow.

Hope Haven Consumer Satisfaction

Henry County Care Facility Consumer Satisfaction

In March of 2009 the Henry County CPC received a copy of a 2008 Henry County Community Health Survey Summary of Results. The purpose of this survey was to learn about Henry County residents’ perceptions and opinions of health issues, health care insurance and health care services. Of the final sample of 1018 surveys 375 usable surveys were returned.

One question in this survey that was of interest was the question “How serious is the issue of depression in Henry County.” Over 65% of the respondents felt this was somewhat or very serious and over 65% of the respondents would know where to get help in Henry County for depression. Of the respondents surveyed 16% reported depression as a health condition for them or a member of their household.

Another question of interest on the survey results was a question asking about health insurance coverage. Almost 90% of the respondents reported having all members of the household covered by some type of health insurance. Of the respondents with no insurance coverage over 56% of them reported the premium, deductible or co-pay was too expensive as the reason they didn’t have insurance coverage.

D) *Waiting List*

Henry County did not have a waiting list for service funding in fiscal year 2009.

SECTION IV *Stakeholder Involvement*

The purpose of stakeholder meetings continues to be to prioritize services which will be funded given budget limitations, review annual budgets, discuss the quality assurance reviews to ensure quality standards are being met, develop

long range planning goals that benefit the citizens of Henry County and assist the CPC Administrator with public education efforts regarding the CPC process.

General information or community stakeholder meetings are posted in all newspapers published in Henry County to encourage citizen involvement. Providers, family members and consumers are mailed meeting notices to encourage their participation.

The stakeholder meeting held October 3, 2009 was held at the Henry County Courthouse and was attended by local hospital staff, judicial staff, mental health institute staff, Department of Human Services Central Office staff, a State Representative, Board of Supervisors, Sheriff Office staff, local providers, Magellan staff and psychiatric unit staff from an area hospital. The purpose of the meeting was to discuss the critical issue of the shortage of hospital beds statewide and how to make the commitment process work better if possible.

The stakeholder meeting held October 17, 2008 was held at the Recovery Center and discussed the mental health funding process and provided budget detail by disability category and service.

The stakeholder meeting held November 14, 2008 was held at the Henry County Courthouse and discussed the FY 2008 annual report, introduced the Community Services Network/changes in data processing and mental health commitments and loss of acute care hospital beds.

The stakeholder meeting held February 24, 2009 was held at the Henry County Courthouse and the purpose of the meeting was to have consumer involvement in writing a new 3 year strategic plan.

The stakeholder meeting held March 11, 2009 was held at the Henry County Courthouse and was specific to judicial staff, the Board of Supervisors, County Attorney, Clerk of Court staff and Sheriff Office staff to discuss looking into other options for a commitment protocol that includes some form of a mental health prescreen before a call is made to find a inpatient psychiatric hospital bed when a commitment is filed during regular business hours.

Attendance at the meetings follows:

| FY09 | Attendance at the stakeholder meetings |
|-----------------------|---|
| Providers | 32 |
| Family Members | 1 |
| Consumers | 14 |
| Citizens/Other | 31 |
