

Septic System Release

I, _____, do hereby agree that by signing this release, I understand, accept and agree that the County of Henry, the Henry County Sanitarian and the Henry County Board of Health has in no way guaranteed or warranted the septic system I am planning to install at the following location: _____

_____. I hereby agree as a part of this release to have the tank periodically pumped and to submit these records to the Henry County Board of Health upon request. I further agree to sample the effluent of my septic system, when applicable, and submit these records to the Henry County Board of Health upon request. I further agree to allow the Henry County Board of Health access to inspect, dye, and test the system when they feel it is necessary to do so. I understand that there may be fees related to these requests and I will be responsible for remittance of those fees to the Henry County Board of Health. In addition, I hereby agree to make any future repairs or modifications that the Henry County Board of Health may later determine necessary.

I hereby certify that a public sewer system is not located within 250 feet from my property. I will properly construct and maintain an on-site wastewater treatment and disposal system at the aforementioned location according to State of Iowa Code and Henry County Ordinances. I agree to make a connection to a public sewer as soon as such a system is available within 250 feet of the property. I further understand it is my responsibility to contact the Henry County Public Health Department at **385-6724** to arrange a site layout and final inspection with the Henry County Sanitarian. I understand that it is an infraction of the law for the septic system to be completed and covered without final approval from the Henry County Sanitarian.

I certify that I have read the above information and I hereby consent to allow site inspections of the location specified to ensure compliance with current rules and regulations in accordance with the Henry County Ordinance and State of Iowa Code governing on-site wastewater.

Signed this _____ day of _____, 20_____.
